PROJECTS

Brick Breakers -Dart, Flutter & Flame

Designed "Book e Library" app using Flutter and Google Books API, enhancing personal skills and promoting reading through e book and audio book exploration, list creation, and offline access.

CARTO E Commerce -Flutter & Dart & Firebase

Created CARTO e-commerce app with Flutter, Dart, and Firebase. Engineered seamless product exploration, cart management, and swift checkout, merging design aesthetics with advanced technology.

App-book E Library-Flutter & Dart & Google Books

Crafted a compelling Brick Breaker game with Flutter, Dart, and Flame. Integrated core mechanics, dynamic scoring, and level progression, leveraging Flame's features for impressive visuals and precise collision detection.

Musika -Flutter & Dart & Deezer

A song player mobile app where user can sign-in with google listen to the music with deezer API and can sort music by type and artist and make playlists to their own liking
